

April 22, 2010

[REDACTED]

Dear [REDACTED],

It is amazing how things have changed in the last year. As pro-life supporters we took quite a beating two years ago in the elections and we were all wondering if it was ever going to get better.

Little did we know, it would only take a year to turn the national and local mood. There is tremendous hope for the year's elections and electing new pro-life candidates to the Oregon Legislature is a top priority for us. Already, in elections across America, pro-life candidates – and candidates who support pro-life policies – are beating all odds and winning!

These candidates are winning because people who have not previously been involved in politics are saying, "Enough is enough," rolling up their sleeves, and going to work to help the candidate they support.

Now it's our turn. Whether you have never volunteered for a political campaign or you are a seasoned campaign volunteer, 2010 is the year of opportunities. This is why I am writing to you. We have a very important opportunity in your area. **An exciting pro-life candidate, Mary Kremer, has stepped forward to run.**

For Mary to win, we really need your help. Your current legislator, Richard Devlin, is not pro-life and has been endorsed by Planned Parenthood and NARAL Pro-Choice Oregon. Planned Parenthood is America's number one abortion provider and NARAL Pro-Choice Oregon is Oregon's most radical pro-abortion political action group. Both organizations work to protect abortion on demand throughout all nine months of pregnancy – including late-term abortions.

Please take a minute and fill out the enclosed Grassroots Form and return it to us as soon as possible. We collect these and deliver them to the candidate to show the collective support of pro-life voters in your area. Candidates are always impressed and amazed by the number of pro-life voters who are willing to help them win.

With your help, we can send Mary to the Oregon Senate. This is a great opportunity to replace a legislator who works against pro-life policies, with one who will fight to protect life.

For Life!

Lois Anderson
